

I do not think LPFM should take priority over FM translators. The only station in the high desert "AIR 1 - 89.7" is the only thing that saves me from the crazy driving situations of these days. People are so angry and self absorbed that they are unable to maintain a courteous and unselfish mindset, they are a danger to others as well as themselves. This channel keeps me from joining the legions of motorists that daily, subject fellow human beings to their disregard for life. The value of this station is phenomenal, it carries the listener above all the ignorance of the day into the store, home, work, easing you through life full of hope, mercy and goodwill. I already have a hard time receiving their signal, if the thought that there is little value in national or regional services such as AIR 1 on FM translators is accepted then ALL their good works through their Ministry will be lost. Their business of spreading the GOOD WORD will be lost. It is everyone's right to free speech, in this case specifically, the Ministry of AIR1, that this service is allowed to remain, so their positive "GOD/CHRIST" centered Airwaves can go out to those who wish to embrace its many Blessings, as it has Blessed me. In the NAME of GOD, Bless us all.
